FTC Solar obtains ISO Certification

August 5, 2018

AUSTIN, TX, August 2018 —FTC Solar's tracker business unit is pleased to announce that it is now ISO 9001:2015 and ISO 14001:2015 certified. ISO 9001 is an international standard that defines requirements for establishing a Quality Management System (QMS). ISO 14001:2015 helps organizations identify and control environmental impact, minimize any negative affects operations may have on the environment, and manage compliance with applicable laws and regulations.

About FTC Solar: FTC Solar is a team of dedicated renewable energy professionals focused on delivering value to our customers across the solar development and construction cycle. With over 4GW of worldwide project installation experience, FTC Solar's hardware, software, and service offerings drive value for solar solutions spanning a range of applications including ground mount, tracker, canopy and rooftop. www.ftcsolar.com.
